*and more...*

**A big key to the creative process is to relax, to let yourself be free and to have fun.**

This is where the creativity takes place. It's a free flowing process of heart and mind.

**CREATIVE BREAKOUT, The Art of Freedom** is about spontaneity and the creative process,

visual composition, and trusting your inner impulse. It is loaded with ideas, tips, suggestions and demonstrations of direct and exciting ways to work with luscious watercolors, acrylics, soft and hard pastels, oil pastels, Sumi ink, and Art Chunky's.

The sections on how to use your materials and your page provide you with some simple guiding concepts and techniques. The idea is to work spontaneously and respond to what's happening on the page while keeping the focus going, that is, "keeping the melody".

**The other really big key to the creative process is to believe in yourself as you work.** I hope that my free-form and free-flowing approach will encourage you to work freely and confidently, too. Learning to trust and follow your inner impulses will put jazzy power in your paintings and take you places beyond your expectations. This approach will grow your artistic knowledge and build your confidence, too!.

*Buchman, an accomplished artist, a giving teacher and excellent communicator has empowered students and artists of all levels to make progress beyond their expectations. As a lifetime student of the creative process, Bill has evolved splendid watercolor and mixed media techniques for creating beautiful, powerful and timeless artworks.
